

Lesson 1

Today in Class

Today we were introduced to the piano keyboard by Mr. Beethoven. We learned that the high “bird” notes are located on the right hand side of the keyboard and the low “whale” notes are located on the left hand side of the keyboard. We learned to use our right index finger to play high notes and our left index finger to play low notes. We played a number of games reinforcing these concepts.

This Week at Home

- This week, review lesson 1 with Mr. Beethoven and then visit Miss Melody in the practice room for more games.
- In the Games Room you will find games designed to reinforce each week’s lesson.
- This week you can have fun playing “Rescue the Coconuts”.
- Explore the Improv Room as well for added fun. Have fun singing and playing high notes and low notes.

Pointers for Parents

- Remind your child that high and low refers to pitch NOT volume.
- Remember, a number of short practice experiences throughout the week are far more valuable than fewer longer ones.
