

Lesson 2

Today in Class

Today we found "Middle C" on the keyboard. In our pictorial notation Middle C is represented by a boat on the water. We played musical games involving high notes, low notes and Middle C. The better we get, the quicker the action got!

This Week at Home

- Review the lesson with Mr. Beethoven and visit the Practice Room and Games Room for games to help your child feel comfortable with the new concepts.
- Try the new game "Catch the Note" as well as "Coconut Rescue." Children, play these games with your adult and see how they do! Remember to use the pointer finger on your right hand for the high notes and the pointer finger on your left hand for the low notes.
- Make up some of your own songs using high notes, low notes and Middle C
