

## Lesson 4

### Today in Class

Today we learned to substitute notes (circles) for birds, whales or boats. "Middle C" (formerly the boat) hugs a line. Above the line are high notes and below the line are low notes. We played high and low games.

### This Week at Home

- Review the lesson with Mr. Beethoven and remember to use your right index (pointer) finger for the high notes and your left index (pointer) finger for the low notes. For Middle C you can use either hand!
- Can you think of things that make high sounds? Things that make low sounds? Listen at home and see what you can discover. Listen to the microwave beeping. Listen to the washing machine scrubbing.
- Visit Miss Melody for more songs.
- Have fun in the Games Room. You can try all three of your games.
- Which one is your favorite? What will happen in the storybook? Which ones is the trickiest? Which one does your adult like the best?
