

## Lesson 8

### Today in Class

**DOUBLE NOTES!!** Today for the first time we played with both hands at the same time. When we play a high note and a low note at the same time we call them "Double Notes". It is very tricky but lots of fun. Miss Melody told us about the violin. Sometimes it is played with a "bow" and makes long sounds and sometimes it is plucked like a banjo and makes sounds like rain drops!

### This Week at Home

- Do the lesson with Mr. Bach and remember to play the "double notes" with your pointer fingers.
- When you make up new songs with Mr. Bach and Miss Melody try using lots of different "double notes". See how they sound together. Some will sound nicer than others.
- When you visit the games room you'll find a new rhythm game. Listen carefully and play the same rhythm as Bongo Boy or the crab will nip your toes! If you play all the rhythms correctly, Bongo Boy will get HIS toes bitten by the crab!
- Play this game with your adult and see if they get their toes bitten by the crab!
